

↔↔ A vacant and prominent position, just waiting for our own Notice Board, not only stating our plans to enhance the station, but also advertising the existence of the u3a movement

Our u3a Mission Statement...

In 2021 our u3a which is a charitable organisation and part of a national u3a movement, sportinh a motto of ***learn, laugh, live,*** adopted Kidderminster Station with a view to: -

⇒⇒ Making the station more relevant to the locality

⇒⇒ Involving local people in the station, enabling railways, local communities, businesses, and organisations to work together to achieve great things

⇒⇒ Developing arts projects, conveying local history, advertising what the locality has to offer, planting and landscaping parts of the station.... And more!

Our Vision...

Is wide and long term! Initial project ideas are in place, some have already come to fruition. Others will take a little longer and will happen when funding is secured.

Run by Volunteers...

We already have a core of willing volunteers from our u3a membership, all wanting to make a difference at the station, however, we welcome more people and organisations who would like to contribute to this project, either physically or by offering sponsorship to make it all happen.

“Many hands make light work” and working together we can all make Kidderminster a welcoming, colourful, and informative station to be proud of.
