

In August ’24, a visit by personnel from **West Midlands Railway**, **Network Rail** and **Worcestershire Community Rail Partnership,** all saying how very happy they are with how we have used imagination and transformed our station.....

And we didn’t realise how happy, until 25th September, when we were presented with the Community Champions Award!

Ian Baxter, Strategy Director of SLC Rail (4th from right) who designed the new station building, supporting *Worcestershire County Council*, said that we have put much needed life into the new station.
