

Andrew was an extremely talented man, and a u3a member who produced several videos for various interest groups during his time in our u3a.

He also worked tirelessly at *The Rose Theatre* in Broadwaters, performing many tasks including, sound and lighting

**This steam train artwork project was
funded by friends and family, in the
memory of a Kidderminster man
Andrew N Davie
who passed away in 2021**

Upon hearing the back story of Andrew, manufacturers *AJS Profiles of Smethwick* chose to make a significant contribution towards the production and installation of this artwork.

Without their kind contribution, we would not have been able to complete this project.

Grateful thanks!
