

First – a boat had to be sourced

This is where '**a suitable boat**' had settled since 2010, in the front garden of a home in Penn, Wolverhampton, first seen 2022

A stroke of good luck!

The 14.5ft boat was kindly gifted to our project in June 2023 by the Priest Family

(Norman, Laura & Karen)

Its name:

'Captain Pugwash'

Originally purchased from Tamworth Sailing Club, and used for Club Racing until it was retired in 2010

June '23 - it's loaded onto a trailer and on its way to pastures new

All done with the kind help of local businessman Robin Wheldon and his grandson who live near to Arley, where Robin transported it to and where it would stay until the station site was ready
